To Market Participants

**Final determination of causer of under frequency event on 9 April 2011**

The System Operator has confirmed that on 9 April 2011 at 22:34 an under frequency event occurred at Huntly with 124.2 MW lost at 49.25 Hz.

Following information received from Genesis Energy, the System Operator has determined Genesis Energy to be the causer of this under frequency event.

Under the new rules set out in clause 8.61 (4) of the Electricity Industry Participation Code relating to the determination of causers of under frequency events, the System Operator invited submissions on the draft determination by 5:00pm on Wednesday 11 May 2011.

There were no submissions received. The System Operator, under clause 8.61(9), advises the final determination of the causer of the under-frequency event on 9 April 2011 is as above.
